EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Peter McDermott on April 28, 2004.

The application has been amended as follows:

IN THE CLAIMS:

Claim 11, line 2, delete "WO3" and insert therefor $\text{-WO}_3\text{--}$.

Claim 11, line 2, delete "Si3N4" and insert therefor $\text{-Si}_3\text{N}_4\text{--}$.

Please cancel claims 15 and 16.

The following is an examiner's statement of reasons for allowance: Applicant's declaration and arguments have overcome the rejections of record. The declaration provides unexpected evidence over Gillery in that a thermostable coating of the instant claims results in an increase of transmittance not taught or rendered obvious by Gillery. Regarding King, the reference teaches application of the coating subsequent to heating and tempering, thereby not teaching or rendering obvious a thermostable copper oxide coated article as claimed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
